STRIKE SCHOOL,
BURSTON, DISS,
August 31st, 1922.

DEAR COMRADES,

We again thank you for your kind support and herewith present our Balance Sheet for the past two years.

It is eight and a half years ago since the School Strike started and there is still every reason and encouragement for continuing the fight and carrying on the work of the Strike School.

The Strike arose, as is well-known, out of the tyranny and injustice of the Local Education Authorities and the dismissal of the teachers on account of their Labour and Socialist principles.

These principles have been maintained throughout and are to-day the life and atmosphere of the Strike School where they find free and joyous expressing.

The accompanying photograph was taken about a month ago.

The Strike School appears to be the only Labour and Socialist Day School in the Country and is therefore significant as pointing the lesson to the workers, of themselves controlling the education of their children.

Friends living away from Burston who would like to send their children to the Strike School can be supplied with terms for boarding, &c.

Trusting you still to assist us in carrying on the work of the School and in keeping the Flag flying at Burston.

We remain, dear Comrades,

Yours fraternally,

ANNIE K. HIGDON.
T. G. HIGDON.

BURSTON STRIKE SCHOOL.
